

Roxtec International AB, Sweden

General Technical Statement

Eu directive 2011/65, Restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS Directive), including (EU) 2015/863

Roxtec International AB develops, design, manufacture and sell sealings solutions for cables and pipes based on EPDM rubber to customers all over the world. We are certified in accordance with ISO 9001:2015 and ISO 14001:2015.

Roxtec International AB is committed to minimizing the use of harmful chemicals for electric and electronic equipment and complies with the requirements of the RoHS Directive.

Our products C RS T and RG M63 contain lead in the copper (brass) alloy. The lead content is within the limits specified by the exemption in Annex III (6c) of the RoHS Directive, which permits copper alloys to contain up to 4% lead by weight.

We declare to the best of our knowledge that the products supplied by our company are compliant with the RoHS Declaration and do not contain restricted substances.
